## No one

1, It's another lonely Sunday, It's another day to be alone,  
'cause it's over.  
I don't think I'll forget one day, All I ever wanted was you,  
So now I'm broken.

R. No one ever made me feel like you, no one, no one, ever.  
No one ever made me feel like you, so good, no one.

2, It's another gloomy Sunday, it's another day to lose it all,  
I'm so close to the end.  
Last thing I've told you was „stay“, But all I've got are my empty hands, I'm on my knees, no, I can't stand.

B, Don't stop, ring, ring, when it's calling your heart,  
You need to cry, no need to fight, 'cause tears could be dried.  
I knew that she was the, she was the one,  
She was the only one I could love, that I could love.  
And now I see her go, and it's so hard to take it as I see it,  
I'm so down, my heart almost stopped, you know I mean it,  
Now it's you, now it's me, no more us, when we're gone.

E, No one else but you
